## SRI Education™

**SRI Education**, a division of SRI International, is helping federal and state agencies, school districts, major foundations, nonprofit organizations, and international and commercial clients tackle some of the most complex issues in education to help students succeed. Our mission is **to reduce barriers, optimize outcomes, and ensure educational equity for all children, youth, and families**. We do this by conducting high-quality research, supporting use of data and evidence, helping to strengthen state and local systems, and developing tools that improve teaching and accelerate and deepen learning. Our work covers a range of topics: early childhood learning and development, disability and inclusion, multilingual learners, student behavior and well-being, teaching quality, digital learning, STEM and computer science, literacy and language arts, school and district reform, and college and career pathways. **We believe diversity in our organization and project teams leads to better and more equitable research and technical assistance, resulting in improved outcomes for all.**

**SRI International** is a nonprofit research institute whose innovations have created new industries, extraordinary marketplace value, and lasting benefits to society.
